

1-1 Product Description

Introducing PMA-SynRM MSI series, which are designed for fan/ pump vector control drives. The Delta PMA-SynRM have specialized Motor-drive integrate improvement functions to provide efficient output when working with Delta MS300 and CP2000 motor drives.

1-2 Nameplate Information

Item No.	Description
1	Delta Logo
2	Motor type
3	Insulation level, for example, Class F, IP level
4	Input power: Three-phase AC power, rated input voltage, rated current, frequency
5	Rotation direction
6	Output power: Rated output power, rated speed, rated torque, power factor
7	Design & Production address
8	Efficiency level, for example, IE4 (IEC60034-30-2)
9	International certification
10	Weight
11	Working environment conditions
12	Front/ rear bearing model name
13	Production country
