

1.3.2 Robot model selection

The  (Robot model selection) button shows SCARA, VA, or RS-AFS according to the type of the connecting robot.

- SCARA: the DRS series 3-axis, 4-axis, and 5-axis robots.
- VA: the DRV series 6-axis robots.
- RS-AFS: screwdriving robots.

Selecting the robot model:

Click  (Robot model selection), and the screen displays the window for selecting the robot model.

■ Manual model selection

Refer to the model number on the nameplate of the robot to select the model.
