

1.5.3 Project

After updating the project list of the controller in the main page, you can check for information of the controller projects in the **Project** tab of the Subpage.

1. Click the **Project** page in the menu on the left.
2. Right-click the [Controller] folder and then click **Update**.
3. In the **Project** tab on the right, you can check for the project name, size, and editing time.

1.5.4 Point

In the **Point** tab, you can quickly modify the point data in the **Point** page of the menu.
